GENUINE HOLLANDERS

On Their Way to Merced, Cal.

Where They are to Settle.

A New York dispatch of the 22d inst. says: As quaint and picturesque an ideal reproduction of a page from Irving's "Knickerbocker History of New York" was the scene at the Netherlands-American pier, at the foot of York street, Jersey City, this morning, when the steamship Spaarndam arrived from Amsterdam.

Clad in typical costumes and possessing all the characteristics so infinitely portrayed by Irving, a colony of genuine Hollanders landed from the Spaarndam. The strangers numbered sixty-five. They came from Rotterdam, Amsterdam and the interior cities of Holland, and are going to Merced, Cal.

The Hollanders are more than the ordinary immigrants. They came over as cabin passengers, and a special train was chartered this evening to carry them to their destination. A San Francisco attorney is at the head of the enterprise.

Four months ago he was sent abroad to induce the Holland families to emigrate to this country. The sixty-five persons who landed to-day are the first fruits of his mission. If they prosper and find California the El Dorado pictured by the persuasive attorneys others will follow, and Merced will become a typical village of Holland.

They will all engage in agricultural avocations. The combined wealth of the sixty-five is \$350,000. They carry with them a retinue of servants. They are not transient settlers, but each one landed with the avowed intention of becoming an American citizen. As soon as they reach Merced they are going to establish a church for themselves, import an ecclesiastic divine to give them spiritual consolation and build a school for their children.

NEW STOCK DISEASE.

The Effect of Alkali on the Brains of Cattle.

The Tucson (A. T.) Star says: There is a disease prevalent among some of the herds of our stockmen which is peculiar and difficult to diagnose. The animals become stiff in the legs, chill as if with the ague, and generally die. They also water from the eyes. In a recent examination the entire carcass of the animal was found in a healthy condition, excepting the head. It was found to be entirely devoid of brain, and upon examining others the inside of the head was as dry as a gourd. The immediate cause of the trouble is supposed to be alkali dust. The remedy suggested is the use of bacon, which is thrust down the animal's throat and thus far has proven successful. During the last few weeks several cattle and horses have died near Tucson.

Visited the British Queen.

The Empress of Austria paid a visit to Queen Victoria at Darmstadt. Considering that the Empress Elizabeth was always adverse to court ceremonial, rarely exchanging visits with other reigning personages, and has lived in complete retirement since the crown Prince's death, this act of civility assumes the character of an extraordinary event, and gives rise in Vienna to the hope that her Majesty may return to her formal mode of life.

Where New York's Criminals are

Senator Fassett's committee of the New York Legislature has been making things mighty uncomfortable for Tammany. One revelation it has made is that, instead of being in the penitentiary, most of the highway robbers in New York are holding positions under the Democratic leaders in Gotham. Even the employees of the Department of Health have been holding up the milkmen.

Villard On Languages.

Henry Villard's fondness for studying languages amounts almost to a passion. His railroad interests occupy all of his time during the day, but nearly all of his evenings are given over to the erudite and careful study of some of the more interesting phases of the different tongues with which he is acquainted.

An Industrious Literary Man.

The Murdering Apaches.

Special to the GAZETTE.

TOMBSTONE (A. T.), May 26.—The body of Robert Hardie, a well-known lawyer of Los Angeles, was brought in here Sunday from the Chiricahua Mountains, where he was killed by the hostile Apaches on Saturday afternoon. His companion, Dr. Haynes of Philadelphia, had his horse shot from under him, and escaped by mounting his companion's horse. The Indians fired from ambush. Both men came here for their health two weeks ago. Hardie leaves a wife and child in Los Angeles.

The Coroner's Jury appointed a committee to draft a statement of the affair, which will be wired to President Harrison.

The Presbyterian Assembly.

By Associated Press.] SARATOGA, May 26.—At the Presbyterian General Assembly to-day the report of the Committee on Synodical Records was read. They were mostly approved.

The report of the standing Committee on Publication was delivered by its Chairman, Dr. Howard Crosby, and a resolution offered approving the work and recommending that the committee consider the expediency of publishing Sunday school helps and literature in the German and Scandinavian languages.

A Tennis Game.

By Cable and Associated Press.] DUBLIN, May 26.—The tennis match between Pettit of Boston and Saunders of England for \$2,500 a side and the championship of the world commenced to-day. The winner must secure seven out of thirteen games. Pettit won the first set and Saunders the second and third.

The following are the scores in the match: Pettit won first set, 6 to 2; Saunders won second set, 6 to 4; third set 6 to 2; and fourth set 6 to 1.

Wisconsin German Catholics.

By Associated Press.] MILWAUKEE, May 24.—The first convention of the German Catholic Society of Wisconsin opened this morning. Up to noon to-day nearly 3,000 members of the society, 100 delegates and about 3,000 excursionists had reported at headquarters. Nothing but organization will be accomplished to-day. It is expected the convention will adopt resolutions in opposition to the Bennett compulsory school law, which is just now shaking the political foundations of the Badger State.

Still Persecuting the Christians.

By Cable and Associated Press.] CANEA (Crete), May 26.—The Christians have adopted a resolution appealing to foreign Consuls for protection against the continued outrages by the Turks. They threaten to close their shops and bring about a general suspension of business unless there is a change for the better in the attitude of the Turks toward them.

Struck on an Iceberg.

By Associated Press.] NEW YORK, May 26th.—The steamer Thingvalla has arrived from Stettin. On May 19th, during hazy weather, she had a collision with an iceberg, in which she stove in her bow and stem and bow plates all above the water line, and the steamer is leaking. The passengers are all well and uninjured.

Steamship Damaged.

By Cable and Associated Press.] HAVRE, May 26.—The steamship Gascoigne arrived here early this morning in a disabled condition. Yesterday the steamship struck a rock on one of the Scilly Islands and stove a hole in her bow. All are well on board.

A Proper Termination.

By Associated Press.] AMSTERDAM (N. Y.), May 26.—Michael Sheehan, aged 22, jumped from the Mohawk river bridge yesterday afternoon on a wager. After striking the water he did not rise again and was not recovered.

5 O'CLOCK EDITION.

MR. CLEVELAND wrote to the Farmers' Club at Steubenville, Ohio, the other day, and in the course of his letter he used these words:

"The plausible presentation of the blessings of a home market should not deceive our depressed and impoverished agriculturists."

The Boston Journal takes this up and calls Mr. Cleveland's and the country's attention to the fact that, while Mr. Cleveland was President, his Commissioner of Agriculture put out the report of the Agricultural Department for 1887, in which report he used these words:

No amount of advertising, no proffers of reciprocal trade, no changes of tariff policy can force upon England another peck of wheat per capita, scarcely another quart, for many years to come, unless unexpected disaster shall befall her crops.

Now, then, the question is, "If there are no blessings in a home market, from whence does Mr. Cleveland look for those blessings?" Mr. Cleveland and his friends are seeking to carry the idea to the people, and we have no doubt, says the Salt Lake Tribune, but what Mr. Cleveland is sincere in the belief that the tariff is what depresses the agricultural interests, when, in fact, all the depression has come through the expansion of crops and the contraction of money. There was no trouble, and the farmers were doing well enough, up to 1873. Since then they have been growing steadily poorer, until now they have reached a point where there is no profit left to them. If the sinister legislation of 1873 could be wiped out the return to prosperity would be more speedy than the decline has been. It will never come in any other way. It is a pity that the statesmen of the country are so slow in finding out that fact.

ACTUATED, doubtless, by the most philanthropic and unselfish desire to prevent every poor family throughout the length and breadth of this land being forced to contribute to the profits of manufacturers who are unprincipled enough to make goods here that can be made in England, Englishmen of all degrees conditions and kinds are now straining every nerve to prevent the enactment of the McKinley bill.

One of the latest efforts of that kind was made by Jesse Collins, a Liberal member of Parliament, who asked if England will not exhibit at our World's Fair in case that bill was passed. There is one thing that England will not exhibit: an average sample of the homes of its wage earners.

THE Salt Lake Tribune says: Inasmuch as Colonel Ingersoll can not be here to deliver an address on the Fourth of July, why not send for Hon. Thomas Fitch of Reno, Nev.? He can talk as well as Ingersoll, and the people in this basin owe him a debt. He has spent the winter in delivering silver speeches in the great cities of the East, and no one can give so clear a silver ring to a speech as he gives to the people of Nevada. Why not send for him?

Mr. Fitch has already accepted an invitation to deliver the oration here on the Fourth of July, and the Salt Lake people are doomed to disappointment.

CARSON CITY, which has the most unsafe, badly arranged and poorly ventilated schoolhouse in Western Nevada, has just voted against a special tax, which would have raised the necessary funds to render that structure passably convenient and safe. The alurians of Nevada State Capital seem to have things pretty much their own way.

As matters have been reasonably expected, the vote of Nevada's two Senators on the attempt of the Democratic ballot-box stuffers to steal the State of Montana is not entirely pleasing to the Eureka Sentinel, whose editor, during the campaign in the above State, was one of the Cobden Club expounders of the free trade party.

THE Nevada Republican says: George William Curtis is getting very handsome. He is about all that is left of the Mugwumps, his earlier partners having either repented or gone over bodily to the Democracy. George William has learned that when a man grows better than his party he will bear watching.

Scrofula

In Its Worst Form—"White Swelling" Cured.
The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases: "My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him

A Confirmed Cripple.
I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, the swelling went down, the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. MCMURRAY, Notary Public, Ravenswood, W. Va.
